Office laminator

Laminator - OPUS AutoLAM A3 Instant

Catalogue number: 400355

Office laminator up to A3 format.

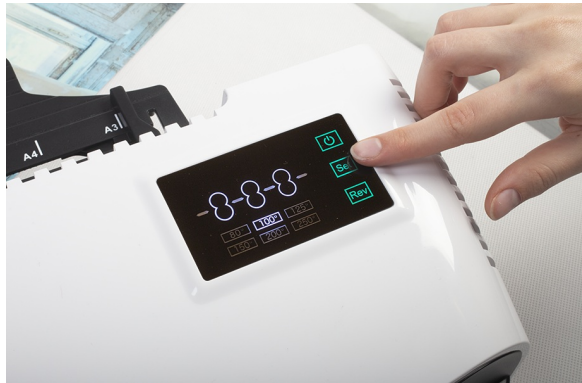

Description

AutoLAM A3 Instant – EFFECTIVE DOCUMENT PROTECTION

Laminating is a great way to **protect documents from dust, stains and any damage** that might occur to them as a result of transport, improper storage, everyday use or simply the passing of time. It is also a perfect **protection of paper appearance** - laminating

a sheet of **paper prevents its creasing or yellowing** and allows to remove any impurities from the film quickly. Thanks to AutoLAM A3 Instant laminator you will enjoy aesthetics and safety of your documents!

EASY TO USE LAMINATOR

AutoLAM A3 Instant is a functional, simple and convenient laminator, which will allow you to quickly laminate and protect against damage documents up to A3 size. The device works with heated rollers technology, does not require the use of paper or film media, and does not require warming up!

MINIMALIST DESIGN

Using the intuitive control panel you can start the machine and select the film thickness - other parameters will be set automatically. The entire lamination process runs at a **speed of 450 mm/min** for 80 μ m film and **260 mm/min** for 250 μ m film.

READY TO USE IMMEDIATELY AFTER SWITCHING ON!

Unlike many laminators on the market, **AutoLAM A3 Instant does not require warming up** - it is ready to use immediately after turning on! To laminate a document, simply turn the machine on, select the **film thickness: 80 / 100 / 125 / 150 / 250 μ m**, use the format stopper to set the desired paper size, place the sheet on the feeder and slide it into the feeding slot.

Your document will then be laminated and effectively protected!

A3 FORMAT

The laminator supports paper sheets up to 335 mm wide, allowing you to laminate A3 size sheets. In addition, the device has a stopper with format markings: A3, A4 and A6, which will help you to correctly insert your document into the laminating slot.

AUTOMATIC RETREAT OF A DOCUMENT

If the material is blocked in the feed slot, the machine will automatically retract the document. You can also withdraw it manually by pressing the Reverse button on the control panel.

FOR HOME AND OFFICE USE

The small size of the laminator and its simple operation allow you to use it freely both at home and in the office or other institutions. Thanks to the protective film you will not only protect important documents but also photos or other keepsakes which could be damaged, stained or destroyed in any way.

THE ADVANTAGES of the AutoLAM A3 Instant LAMINATOR

- easy operation of the device
- prevention of document forgery
- much lower cost than outsourcing lamination to a company
- aesthetic appearance of documents
- protection of documents against moisture, dust and dirt
- increase in paper strength
- protecting documents against creasing
- increase colour fastness on paper

LAMINATE YOUR DOCUMENTS - GET FLAWLESS PAPER!

Paper lamination allows you to protect your documents from dirt and creasing in an aesthetic and durable way. Make the appearance and durability of your documents your trademark!
