Hand binder

Binding equipment for plastic combs - OPUS Maxi Bingo

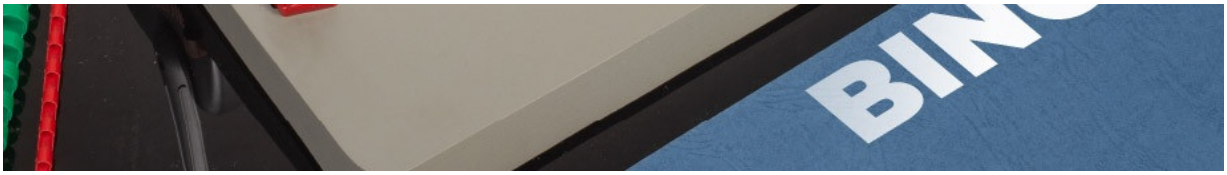

Catalogue number: 100163

Binding equipment designed for binding documents with a plastic combs.

Description

BINDING – AN AESTHETIC WAY TO ORGANIZE DOCUMENTS

Binding is a bookbinding technology that involves joining loose sheets of paper together in various ways – using metal channels, thermal covers, spirals, wire spines, or plastic spines. Binding is often accompanied by binding documents in various types of covers – soft or hard, plastic, coated with various veneers, and in various colors and sizes. Binding is a great way to organize and safely store documentation, as well as to enhance the aesthetic value of documents. Theses, term papers, offers, projects, business materials, and photocopies of books or textbooks are most often bound. A good quality binding machine is useful in every office – yours is a must-have!

MAXI BINGO – BINDING MACHINE FOR PLASTIC SPINES

Maxi Bingo is an office binding machine for **plastic spines**, with which you can quickly and easily punch **14 sheets of A4 paper** with a weight of 80 g/m^2 at a time and bind up to **510 sheets**. The device is equipped with a professional, easily operated **spine stretching mechanism**, **margin adjustment** and **perforation depth**, **shred container** and **ergonomic lever**. This makes working with Maxi Bingo easy and comfortable, and the result is aesthetically punched and bound documents, which you can also **debind** if necessary to remove incorrectly bound pages or add new ones.

SMALL SIZE, COMFORTABLE WORK

The binder's small size makes it an ideal device for any office – it's easy to move and place anywhere, as it doesn't take up much space. **The solid construction and durable metal base** guarantee stability and comfort of work, and the **easy-to-empty shred container** will help you keep your workstation clean.

PRECISE PERFORATION AND EASY BINDING

On the base of the binding machine, you'll find a **table** with information to help you **choose the right spine** and **margin settings** for the number of sheets you plan to bind. Convenient margin and perforation depth adjustments will help you achieve the desired aesthetic punching effect. When using the Maxi Bingo, you can use **plastic combs** with a **maximum diameter of 51 mm**, allowing you to bind up to **510 sheets** at a time!

A WIDE RANGE OF COVERS AND SPINES

OPUS offers a variety of spines and soft covers that you can use to bind and bind documents using the Maxi Bingo binding machine. Covers are available in various formats and colors, with different textures, thicknesses, and finishes, as well as colorful plastic spines in various sizes.

A BINDING MACHINE IDEAL FOR ANY OFFICE

Binding documents is a great way to organize them, store them conveniently, protect them, and present them aesthetically. This handy binding machine will work well in any office, service center, or institution, and even at home. It will help you keep your documents organized and give them an aesthetic and elegant appearance. Bind term papers and theses, projects, commercial offers, note collections, photo books, manuals and much more!
