UV Printing Film

Printable Base Film Sheets - UV DTF (Type A) - 430 × 310 mm - 100 pieces

Catalogue number: 664191

Description

The Foundation for Perfect UV DTF Prints

This high-quality base **film (Type A)** is your first step to creating stunning, highly durable transfers for hard surfaces. It serves as the primary medium where your UV printer applies the color inks, white layer, and UV varnish. The film comes with a factory-applied layer of special adhesive, which, once laminated with the transfer **film (Type B)**, allows you to apply the finished design on glass, plastic, metal, wood, or ceramics easily without a heat press.

Parameters

Brand	artisJet
