UV Printing Film

Transfer Film Roll - UV DTF (Type B) - 310 mm x 50 m

Catalogue number: 664207

Description

The Essential Carrier for Your UV DTF Transfers

Transfer film (Type B) is the indispensable second half of the UV DTF printing process. It is used to safely lift and transfer your finished, cured print from the base film (Type A) directly onto the final item. The continuous roll format is perfectly suited for use with roll-to-roll laminators, significantly speeding up your workflow and production efficiency.

Parameters

Brand	artisJet
Type	B-Film (transfer / carrier medium)
Format	Film Roll
Dimensions	310 mm × 50 m
