Paper trimmer

Rotary trimmer - OPUS roloCUT A4

Catalogue number: 300235

The most inexpensive A4 rotary trimmer for homes and small offices.

Description

RoloCUT A4 CIRCLE ROTARY TRIMMER - GUARANTEE OF EFFECTIVE OPERATION

The paper trimmer is a **great alternative to other cutting tools, and can be used** both in the office and at home. In order for this tool to be functional and perform at its best, it must be robust, have a smooth-running head with blade, as well as being safe and comfortable to use - all this will be guaranteed by the **RoloCUT A4 rotary trimmer.**

A HANDY TOOL FOR EVERYDAY WORK

The rotary trimmer allows you to cut paper in the **most varied formats and angles**. The blade and cutting bar are made from high-quality steel, and the shape of the cutting elements is **self-sharpening**. As a result, you can use the trimmer every day without having to worry about replacing the blade.

SIMPLE OPERATION, SIMPLE CUTTING

The paper should be pushed under the pressure bar and positioned so that the cut line of the sheet coincides with the edge of the trimming bar. After moving the circular blade mounted in the head, the unnecessary material will be cut off. A maximum of 10 sheets of 70 g/m² can be cut at one time.

CUT THE PAPER TO ANY FORMAT

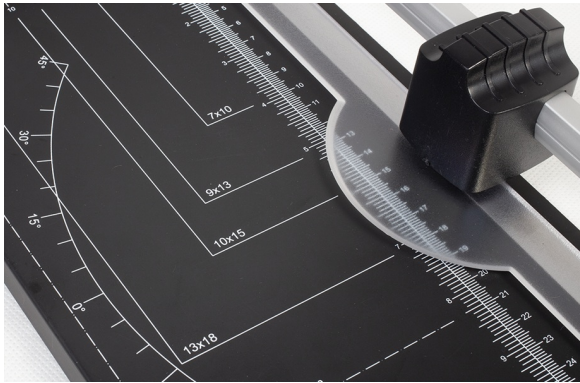

You will find - on the metal base of the trimmer, details of popular formats: A4 and A5, and photographic formats: 13 x 18, 10 x 15, 9 x 13 cm, as well as millimetre and inch graduations and a protractor - now you can easily cut your paper to the desired size!

FULL COMFORT OF USE

The rotary trimmer has been designed to provide the user with the greatest possible convenience when using the device. Thanks to its small size and low weight, it is very easy to move it to another place or to store it away when not needed. The anti-slip feet will prevent the equipment from moving while you work, and the blade which slides in both directions will provide you with maximum comfort and

speed of work.

GUARANTEE OF SAFETY

The paper cutting tool is completely safe to use. The rotary blade is embedded in a special cartridge which protects fingers from contact with sharp elements, and the design of the guide prevents the head from moving on its own. The fact that the blade does not need to be replaced further reduces the risk of injury.

FOR HOBBYISTS AND PROFESSIONALS

OPUS RoloCUT A4 trimmer is widely used at home, in the office and other institutions, where **letters, documents, printouts, flyers or business cards** are prepared. With the trimmer you can cut, trim or trim paper in any way you like, while maintaining a **perfectly straight cut line**. Such a tool is an irreplaceable help in **decorating albums, cutting photos, creating cards** and other projects, where **aesthetics** is important.
